

Gabe Siringoringo

ERP Developer | Full-Stack Software Developer

Medan, Indonesia | gaberingo12@gmail.com | +62 813 5817 8843

GitHub: github.com/gaberingo | LinkedIn: linkedin.com/in/gabe-siringoringo-a827aa16b

PROFESSIONAL SUMMARY

Software developer with over three years of professional experience building and maintaining enterprise ERP systems on the Odoo framework, plus self-directed experience building full applications from scratch in Rust. Actively working with AI development tools and LLM frameworks, including AI coding agents, LangChain, and the Model Context Protocol (MCP), to build and automate software workflows. Skilled in owning features end to end and able to learn new languages and tools quickly. Applying to the Apple Developer Academy to expand into application development and grow into a well-rounded developer capable of taking an idea through to a shipped product.

TECHNICAL SKILLS

Languages: Python, Rust, SQL, JavaScript, HTML, CSS

Frameworks and Tools: Odoo, Actix-web, SQLx, Yew (WebAssembly), Redis Streams

Databases: PostgreSQL

Platforms and DevOps: Linux, Git, Docker

AI Tools and LLM: AI coding agents (Claude Code), LangChain, Model Context Protocol (MCP), tool/function calling, agent configuration, prompt engineering

Core Competencies: ERP customization, module development, debugging, system maintenance, end-to-end development, fast self-learning

PROFESSIONAL EXPERIENCE

ERP Developer — HashMicro

Jakarta, Indonesia (Remote) | June 2024 – Present

- Develop and maintain modules for an Odoo-based enterprise ERP system used by clients across multiple industries.
- Customize and extend existing modules and build new features to match client business workflows.
- Perform bug fixing, system maintenance, and module updates to keep deployments stable and aligned with evolving requirements.

ERP Software Engineer — PT Witech Inovasi Indonesia

Medan, Indonesia | March 2023 – June 2024

- Delivered Odoo implementation and customization projects tailored to client business requirements.
- Led an Odoo migration from version 15 to version 17, adapting existing customizations to the newer version.

Data Scientist, Virtual Internship — ID/X Partners

Remote | February 2022 – March 2022

- Performed data analysis and modeling, interpreting and deriving insights from complex datasets.

PROJECTS

Multi-Seller Marketplace Platform (Self-Directed)

Rust, Actix-web, SQLx, Redis Streams, Yew/WebAssembly, PostgreSQL | 2025 – Present

- Building a full multi-vendor e-commerce platform end to end, including a backend API, an event-driven order pipeline, and a WebAssembly frontend.
- Implemented reliable stock reservation and idempotent payment handling to prevent overselling and duplicate charges.

AI Agent Configuration and Tooling (Self-Directed)

Claude Code, LangChain, Model Context Protocol (MCP) | 2025 – Present

- Configured and integrated AI coding agents into development workflows to automate and accelerate software tasks.
- Built structured agent instruction frameworks and connected external tools and data sources to LLMs using MCP.
- Explored LLM agent patterns with LangChain, including tool/function calling and multi-step reasoning workflows.

Automatic Parking System Using Computer Vision (Undergraduate Thesis)

Brawijaya University | 2023

- Designed a computer-vision system that detects and manages parking spaces automatically.

EDUCATION

Bachelor of Computer Engineering — Brawijaya University

Malang, Indonesia | 2018 – 2023 | GPA 3.39 / 4.00

CERTIFICATIONS

- AI for Junior Developer, Fresh Graduate Academy (DTS) — 2022
- Crash Course on Python, Coursera — 2020
- TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning, Coursera — 2020
- Introduction to Data Science in Python, Coursera — 2020

LANGUAGES

Bahasa Indonesia (Native); English (Professional working proficiency)
